

This is a 31 minute DVD and discussion guide with resources to help young people with Asperger's Syndrome and related disorders build self-awareness, self-esteem, and self-advocacy skills. It has equal value for peers, siblings and others who have been touched by Asperger's Syndrome.

The Asperger's Difference follows three articulate young people as they navigate the waters of daily life and journey towards self-understanding and self-advocacy. Their poignant and candid insights into the longing and isolation they feel offer a window into the Asperger's experience.

However, The Asperger's Difference also offers the viewer the opportunity to see often overlooked strengths in individuals with AS: the poise, self-awareness and sense of humor, which give us the complete picture of what it means to live with Asperger's.
