Spectrum Services Pour & Tour Fundraiser Postponed

In support of our community's health and well-being, Spectrum Services will be postponing its upcoming Pour & Tour Dinner scheduled for Friday, March 27th. In fact, we join a growing number of groups and organizations who are postponing or cancelling events. This proactive, if not preemptive, decision is based on a number of thoughtful considerations surrounding the Coronavirus, and our need to protect our community.

We will be reaching out to those who have already purchased tickets to offer a refund, to turn their tickets into a donation, or to have them put on hold for when we reschedule the Pour & Tour Dinner.

Again, Spectrum Services is committed to protecting not only the health of our students, staff, and their families, but to the greater community as a whole.

We look forward to the new date of our Pour & Tour, and putting on a superb fundraiser in support of our students with autism.
